

## Index

S.NO.	TITLE	DATE	SIGNATURE
1	WAP to create a * diamond pattern using 2d array		
2	WAP to implement sparse matrix addition		
3	WAP to implement sparse matrix transpose and multiplication		
4	WAP to implement linear single linklist.		
5	WAP to implement linear doubly linklist.		
6	WAP to implement circular linklist.		
7	WAP to implement Stacks		
8	WAP to implement Queues		
9	WAP to implement Binary Search		
10	WAP to implement Bubble Sort		
11	WAP to implement BST		
12	WAP to implement AVL tree		
13	WAP to implement Red Black Tree
